CALLS!!!!**

New York State has just received notice from CMS that additional Medicaid funding, in the amount of \$597.8 million, has been awarded for a variety of purposes. Therefore, New York State is in a much better financial position than three days ago and people with developmental disabilities cannot bear another cut to their supports and services.

The State can fully restore our \$120 million cut.

The message is the same -our system cannot bear a cut of any size.
