Front Door Process

Who goes through the Front Door?

- Anyone who does not have OPWDD eligibility
- Anyone who has eligibility and has never received waiver services
- Anyone who has eligibility and has not received a waiver service in over 1 year
- All Department of Ed graduates regardless of their history of receiving wavier services

Front Door Sessions

Eligibility is not a prerequisite to attend a session. Applicants/families can attend a session in any borough, but they must contact the front door in the borough where they reside.

Every person who must go through the front door must attend a Front Door sessions except:

1. If the applicant is requesting CSS/Self Directed Services, they do not have to attend a Front Door session. However, they must attend a CSS/Self Directed Service session.
2. If the applicant is only requesting family support services, they do not have to attend a session and a DDP2 is not required. However, eligibility must have been determined, and an EAA must be completed
3. Recent graduates with some services in place, who are only seeking SEMP/Pathway. An EAA must be completed and the DDP2 will have to be updated if completed over 2 years ago.

7 Steps of the Front Door process

Step 1 Initial contact

The Front Door must be contacted by the family (unless they attended a front Door session and specifically requested to be contacted). Phone calls are returned within 2 business days. Address and eligibility will be verified, and the need for the front door process will be assessed.

Step 2 Eligibility

Does the person have eligibility and have they consistently received services? If not, eligibility will have to be established. Eligibility may also be reevaluated if the person is requesting a higher level of care.

The following is required:

- a. Psychological with FSIQ and Adaptive Behavior Score with standard scores (that reflects current status)
- b. Psychosocial (can be within 3 years but if not done recently, needs statement that information is current)
- c. Medical (within 12 months and MD must note the DD)

d. Age of onset (if applicant is over the age of 22)

Step 3 Assessment and Review of Service Needs

When the front door has been contacted and it is determined that eligibility has been established and the person meets the criteria for the front door, the Front Door Team Leader will assign it to a Front Door Facilitator. The Front Door Facilitator will contact the family to schedule a time to complete the EAA, and to review the most recent DDP2 (less than 2 years) or complete a new one. The family will be invited to a Front Door Information Session if they have not attended one. If the applicant has an MSC, the MSC will be contacted in an effort to have the MSC participate in the conversation. The conversation will focus on the applicant's needs, household composition and family circumstances which should result in a plan to provide the appropriate services. At the close of the conversation, the MSC is instructed to prepare the waiver packet if waiver services are indicated. The Waiver packet consists of an LOC, Document of Choices, Waiver Application and the PISP. If an LOC has not been requested and waiver services are indicated, the MSC must request an LOC at this time

Step 4 Quality Review and approval of Services

The case is presented to the QRT. Staff take into consideration the household composition and family circumstances, the ISPM score, as well as services currently received, including services received from other systems. The QRT agrees on the type and amount of service needs.

Step 5 Service Development and Waiver Application

The QRT discussion results in a choices generated Front Door PISP. If a PISP is already in place, then it will serve as an addendum. A cover letter and copy of the Front Door PISP is mailed to the family. A cover letter, copy of the Front Door PISP, a blank Request for Service Authorization form, and a list of instructions are e mailed to the MSC. The Service Authorization form is to be completed by the MSC, and signed by the family and MSC. The completed Service Authorization form should reflect the amount of hours that are needed, which should coincide with the EAA discussion/PISP, and the identified provider of service. The MSC will not indicate the provider of service until the provider has verified their ability and commitment to provide the service. .. If the MSC is unable to locate a provider of a proposed service within the 10 days, the MSC will note that a provider has not been identified on the Service Authorization form by checking the box that indicates the same. However, the MSC must continue to look for a provider of the service. The form is to be returned to the Facilitator within 10 business days, accompanied by the wavier application. The preferred method for returning the signed Service Authorization form and Waiver packet in Choices, to be filed under Supporting Documents, titled, Waiver Application. However, **the MSC must notify the Front Door facilitator that it has been uploaded into Choices via email.** If Choices is not an option, then the packet must be mailed to the Front Door Facilitator.

Step 6 Waiver Enrollment and Service Authorization

Upon receipt of the completed Service Authorization form and Waiver packet, the Front Door Facilitator reviews the completed Service Authorization form to ensure that it

coincides with the PISP. If it does not coincide, the FD Facilitator must contact the MSC to discuss the proposed changes. If there is continuity, the Service Authorization letter is generated by the FD Facilitator, which is forwarded to the enrollment unit. The waiver packet is then processed by the enrollment unit, and an NOD is issued. The letter and NOD are sent to the MSC, and family, as well as the providers of the approved services, if known.

Step 7 Enrollment In Service

Identified service providers complete and submit a DDP 1 and DDP1 addendum. The DDP1 addendum identifies the source of funding.
